

Business Fields and Development Projects

- Support for diagnosis and treatment at medical institutions
- Contribute to early diagnosis of disease

Medical Care

- Support for ensuring aircraft flight safety and a comfortable passenger environment
- Evaluation testing for automobile safety and comfort
- Power units for industrial vehicles and construction machinery

Transport

- Fatigue testing and deterioration measurement of public and industrial infrastructure

Infrastructure

Health
Industry
Mate

- Semiconductor production process
- Display screen production process

Semiconductor

- Development and quality control of electronic devices and electrical parts

Electrical

Pharmaceuticals

- R&D and Quality Control of Pharmaceuticals
- Pharmaceutical production equipment management

Foods

- Measurement of residual pesticides and measurement/testing of food flavor/texture
- Development of functionally-enhanced foods

Environment / Energy

- Development of renewable energies
- Analysis of the atmosphere, water, and soil

Chemicals

- Development and quality control of petrochemical and chemical products

Materials

- Development of new materials with enhanced functionality, reduced weight, etc.
